

Route 67/Fairgrounds Interchange Project -St. Francois County-

The Project:

- The project includes purchasing right-of-way and constructing an interchange just north of the St. Francois County Fairgrounds on Route 67. The interchange will have approximately three miles of service road on the west side of Route 67, from north of the fairgrounds interchange to Maple Hills Drive.
- Several crossovers will be removed, however right-in, right-out access to Route 67 would still be available in most locations.

The Purpose:

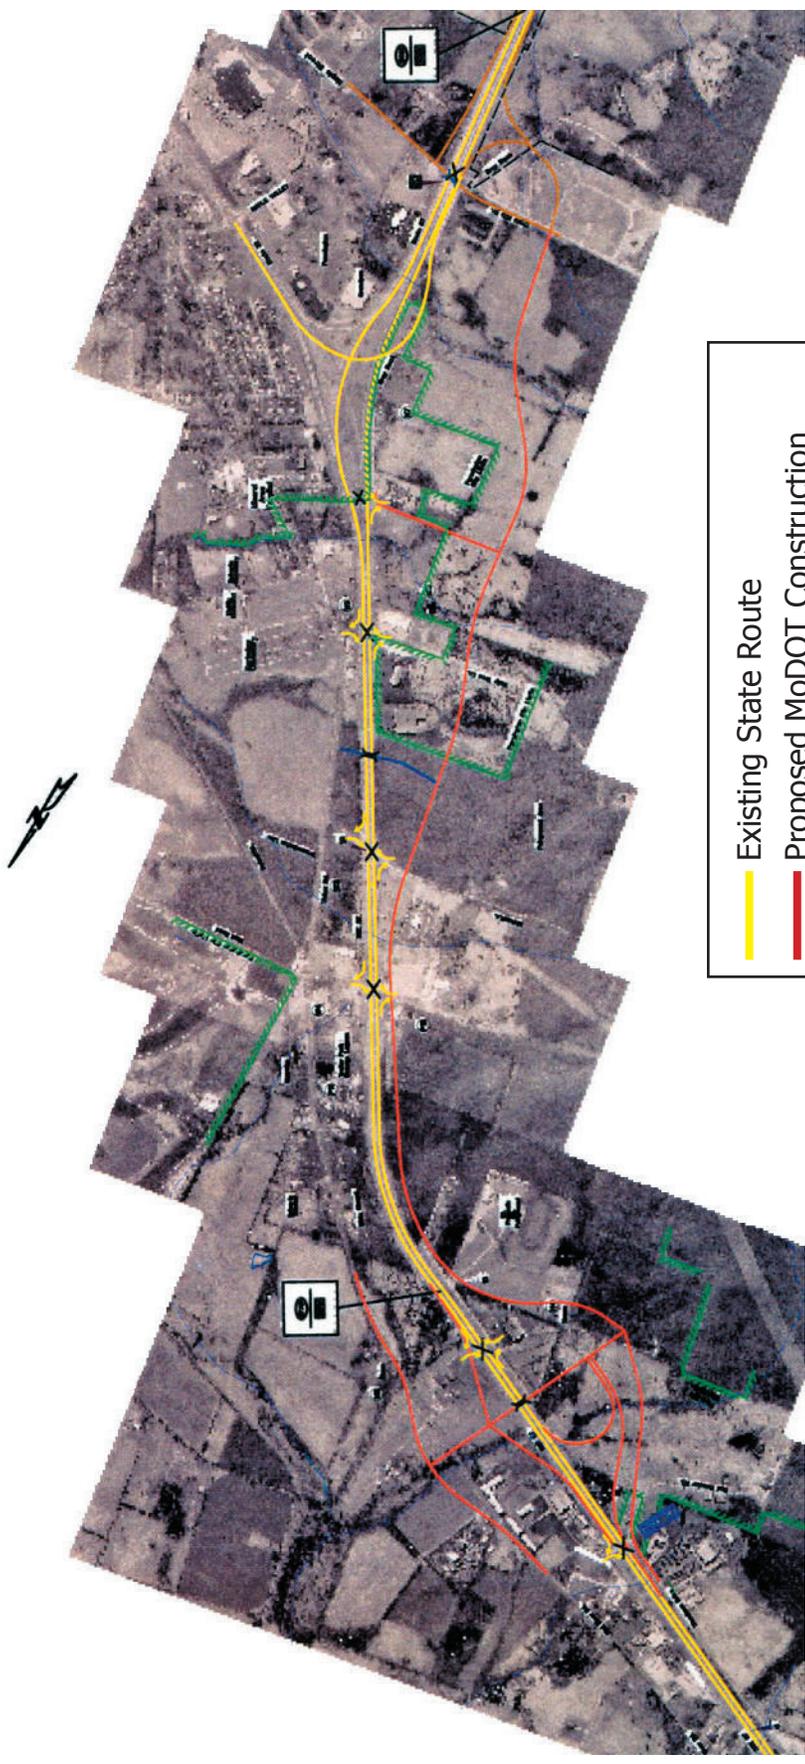

- The project is necessary to improve safety in the area and reduce crashes.
- This project will improve safety by providing an interchange offering safe access to both sides of Route 67 and by removing the crossovers.

The Estimated Project Timeline:

- Right-of-way purchasing will begin in winter 2003-2004.
- Bids are expected to be accepted in fall 2004.
- If awarded at that time, construction could begin in November 2004.
- Completion of the service road is estimated in summer 2006.
